

WELCOME to the flying field of the **North Atlanta Soaring Association (NASA)**. This property is graciously provided for us by the BellSouth Classic Foundation which uses it as a parking lot for their annual Golf tournament. The adjoining property is owned by the Parks and Recreation Department of the City of Duluth. We have letters from both of these entities authorizing the use of this area for our flying. The North Atlanta Soaring Association is an **AMA** (Academy of Model Aeronautics) Chartered Club. It is

an organization of people with the common goals of enjoying and perfecting their skills in the building and flying of radio controlled sailplanes. We encourage you to watch and ask questions. We have members that will be glad to assist you in learning to build and fly R/C sailplanes. The Club has interests from balsa handlaunch to high-tech composite sailplanes. We own winch and retriever equipment as well as "hi-start" bungees for the use of our members and we fly as much as we can on every nice day that comes along. We communicate with our members through a website and e-mail list. We also encourage our members to improve their skills through competition and through the developmental programs of the League of Silent Flight (LSF).

If you are interested in flying at this field, you **must** be a member of the **AMA**. You must also be a member of **NASA** or the invited guest of a NASA member. As a guest, you may fly three times at the field before being required to join NASA. The Club provides the City of Duluth a five million dollar liability insurance policy through the AMA which is contingent upon all Club members and their guests being current members of the AMA, which underwrites the policy.

If you wish to join **NASA**, you must first be able to provide evidence of current membership in the **AMA** or proof that an application has been submitted. You can file an AMA application by phone at (765) 287-1256 or via the internet at <http://modelaircraft.org>. Below is an application for membership in NASA which you should complete and submit along with the \$50 annual NASA dues.
